

GETTING AHEAD

Start to develop skills that are relevant to your course before you join HSDC this September!

Health and Social Care -CTEC Level 2 Diploma

In preparation for your journey into Further Education at HSDC Alton, we think it is important that you think and prepare for your learning before you start with us in September 2020.

A Positive Start

To enable you to have a positive start, a better understanding of your Health and Social Care course and the units you will study, we would like you to complete the following work and email it back to us.

Activity 1

Find out and create a job profile for five different roles with the Health and Social Care Sector.

Give details about the job role, skills needed and the places you may work.

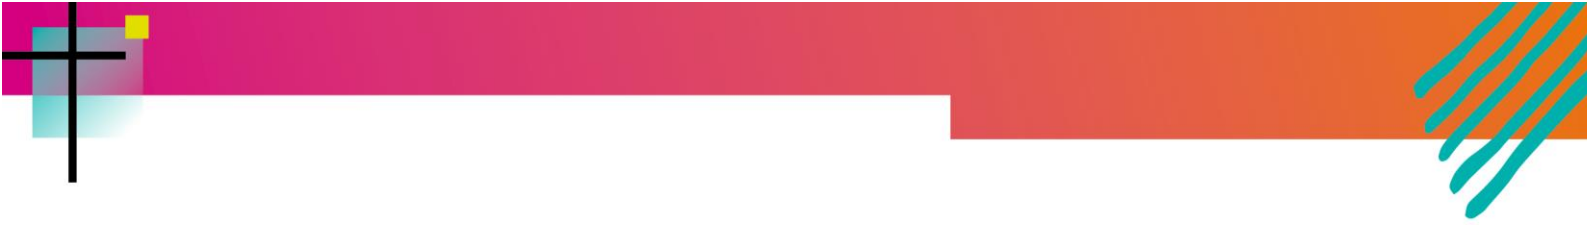

Activity 2

One of the units you will learn about is Creative and Therapeutic activities. As an activity coordinator within a care home, it will be your role to plan activities or games for residents to take part and get involved in.

Research and come up with five activities that you could do for 20-30 minutes with a group of residents within a care home.

We look forward to seeing you in September!

For further information about your College and being a student at HSDC, please visit hsdc.ac.uk/Alton

For each activity, include a picture, description of the activity and make a list for how the residents might benefit from taking part in the activity.

Please email all your completed work to Suzi or Julian.

If it's easier, take a photo of your work and email this over!

Suzi Gallacher
